School Bus Safety

As we adjust to seasonal changes and earlier sunsets, it's essential to remember that our mornings are darker than before...

With limited visibility, it's more difficult to see children waiting at bus stops, putting their safety at risk. That's why the Auburn Police Department is urging all drivers to slow down and remain vigilant, especially during morning hours...

Remember, when you see a school bus with flashing lights, it's the law to stop and wait until the bus has turned off its lights and moved on. This simple action can save lives and protect our children...

April: The Month of Showers, Pranks, and Pink Parasols

Ah, April! The month that starts off with a little foolery and ends with a celebration of Mother Earth. Let's shower you with some historical facts and add a sprinkle of humor.

April, the fourth month of the year, is derived from the Latin word "aperire" meaning "to open," just like all those flowers blossoming and our wallets during tax season. Clever, right?

Once upon a time, in a land not so far away, April 1st was known as "All Fools' Day." It's the day when pranks, hoaxes, and the occasional pie in the face take center stage. And who can forget the great Spaghetti Harvest hoax of 1957, where the BBC made millions believe that spaghetti grew on trees in Switzerland? Noodle on that!

April 22nd is Earth Day, a day when we celebrate our beautiful blue marble floating through the cosmos. So, go ahead, hug a tree, plant a flower, or recycle that plastic bottle instead of launching it across the room like a rocket. Every bit helps!

Finally, the pièce de résistance of April is the cherry blossom festival in Japan. Nothing says "April" like a pink parasol twirling under a canopy of cherry blossoms. Just be careful not to sneeze, or you'll create your own personal blizzard of petals!

So, there you have it! A blooming bouquet of historical facts and humor to tickle your funny bone this April. Happy pranking, tree hugging, and flower admiring!
