## AUBURN WATER LINE INVENTORY

### CITY OF AUBURN Water Service Line Inventory

The City of Auburn is conducting an inventory of water service lines in our city.

#### Service Line Inventory Project

The Environmental Protection Agency (EPA) is mandating a nation-wide Assessment of drinking water systems, and the City of Auburn has launched a community-wide project to identify what every service line (i.e., pipe that brings water to your home) in our system is made of. Lines can be made of lead, plastic, brass, steel or iron. Lead pipes are the primary source of lead in drinking water. Identifying any lead service lines is critical to removing this source of lead from our community.

#### Does the City of Auburn Water Resources maintain any service lines containing lead?

**No.** The service lines the City maintains are those that run from the water main to the meter box on the owner's property. **The City of Auburn Water Resources does not maintain any lead service lines.**

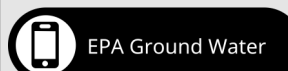

The purpose of this inventory is to determine the materials used in water pipes running from the meter box to the house or other structure. These lines were installed by the builder and belong to the property owner.

#### How is the service line material data being gathered?

We are using several methods to help identify customer service line material type, including a review of existing records. The use of lead pipes was prohibited in 1986. The Environmental Protection Division (EPD) allows utilities to assume that pipes installed after January 1, 1990, are lead-free.

For houses and other structures built prior to January 1, 1990, we will conduct inspections of service lines at the meter box. This work will be done as part of the City's mapping of all meter boxes in the city beginning in September.

## MAYOR'S MINUTE

Mayor  
Rick Roquemore

I'd like to personally welcome our newest Whistle Stop Shop, The Sparkling Mermaid, to the City of Auburn. It was a pleasure meeting this young lady and seeing another great addition to our Downtown roster of businesses.

Downtown Auburn is on a great path to continue to grow and thrive now that City Hall and the Police Department are down the street at our new Municipal Complex. Please keep up to date on all of the latest developments by attending our City Council Meetings, Downtown Development Authority meetings, and following us on Facebook.

There are a lot of great things coming and we look forward to you being a part of it all! Here is a picture from our latest ribbon cutting for The Sparkling Mermaid and a link to their home on the World Wide Web:
